

Sprint 3 Report

Product: Planted!

Team Name: Planted!

11/17/19

Actions to stop doing

- Absence of team members at scrum meetings/TA meetings because it's important that all team members are on the same page
- Working on tasks previously completed in previous sprints because there are tasks that need to be completed in the current sprint

Actions to start doing

- Work on the core functionality of the app because we need to have a minimum viable product (MVP) by the end of the final sprint

Actions to keep doing

- Work on adding more functionality to the add and track plant/see plant features, reminders because this comprises our app's MVP

Work completed/not completed

- Completed
 - Creating an 'add plant' button
 - Creating an 'add plant' feature
- Not completed
 - Creating a feature that keeps track of the last time you watered
 - Creating a feature that keeps track of the last time you fertilized
 - Mocking up a data structure for the user features

Work completion rate

The final sprint burnup chart for the previous sprint should be available for viewing in the lab and an email of this chart sent to the TA/prof

- Total user stories completed: 0
- Total estimated ideal work hours completed: 10
- Total number of days: 4
- User stories/day: 0
- Ideal work hours/day: 8
